About me

I am a dynamic web developer proficient in JavaScript, React, and Tailwind CSS, bringing creativity and efficiency to every project. With a strong foundation in data structures and algorithms, I excel in crafting robust and responsive web solutions. My passion lies in leveraging technology to create seamless and visually appealing user experiences.

Project

Fresh Meal App

Fresh meal is appliction show the ui interface of a restaurant that provide meal . In this i use HTML CSS and JavaScript

Weather App

The weather app show the real time temperature, humadity, wind speed. You can search any locations weather.

Spotify Clone

I use HTML CSS and JavaScript to make this clone. In this there is 100 of song.
